Date: 30 Nov 1965

- 4111 CHE.

In addition to what was stated in the report on Plans, Cherniavsky told we all the followings

1. After his return from Canada TRONKO / bewame even more convinced that the and his delleagues must do something along the questions of "church and language". KOLOSSOVA has now very strong position and will give TRUKO her full support.

- 2. PEDANIUK was the Fareign Minister Designate but now , unless ther would some unexpected changes- this post will be taken by TROMED himslef. Two other dandidates - CHERVONENKO and KYSII - have been discarded, CHERVONENED will stay in Prague CER, and KYSIL will remain the Vice-Misiater of PALAMARCHUK left for Marocco at about the mane time as the Ukraindan Delegation the UN was leaving for New York. To some extent PALAMARCHUE was himself responsible for his transfer to Marocco because he planned to go on retirement and wanted to have an all-union job. CHERNIAVSKY explained that people retiring from all-union jobs get higher pensions than those from republicans
- 3; Despite the fact that TRONKO was quite terms during their first engagetes at the Mission ( on 10Nov 1965) he basically agreed with Dr Kl in all her points and had a very high respect for her. After this encounter they (1 the Mission) discussed these problems for a long time and all were in layor that something must be done to meet Dr Kl's and her friends' wishes. he meant primarily the church question.
- 4. The History of ukraine by Hrushevsky is being already published in Kiev. Also some old "krainias philosophers and 6 volumes of History of Ukrainian cities and villages. Things are moving in talk respect but there are atili many difficulties.
- 5. The present situation in the Ukraine and in the Soviet Union in general is going to change more and more. As to problem of languages : ( suphem) for Aussification) CHERNIAVSKYI'S main hope is on young generation which is coming more and more to the fore. "The young people will change many things and the sooner they come to the helm of power the metter". No one is able to stop them though there were still many dullwitted (tupoholovi)individuals who

refuse to go brong with life. Then he added that actually they happen also to be among the young the ones. Thus, for instance, KOCHUREI is guite conservative and that's why they can't see are to eye with each other. On their there hand be descrabed him TSAPOK as a "progregative" one , and very exhtured, interested in arth ase. TSAPOK served in the Ukraine for Interested in arth ase. TSAPOK served in the Ukraine for later the took CHERNIAVSKY to various sighteeing quote and thank to her he had seen many interesting places in New York. TSAPOK is returning now for good to Kiew. She was here only for one year. Both - CHERNIAVSKY and TSAPOK - are leaving on 1 Dec 1965 at 19.30 hre by Sabenes.

socia-economic cituation in the "kraine. In his spinion <u>Liberschian</u> and alleviation of pensants' situation were unavoidable and great changes in the demains are to be expected. CHERNIAVSKY himself has written a book on Liberssnian, something abot the influees of Western economic systems on Soviet present economic planning, but at has been not published fet.

Several times CHERNIAVSKYI streamed that it was not easy to convince "dullwitted heads" that they had either to change or go, but life itself will soon remove them. "You cannot feed people all the time first with proximes and this must be realised".

2. They (in Kiev) would appreciate very mpen if Dr 22 and her triends could find them an impressario and arganize believ arrespondents for make empling Ukrainian ensembles, believe, wingers and ethers chart to the States and Canada. HUROK ignores Ukrainians and as this occupies distributaVAKE made some anti-semitic statements saying that Jews are also distribute programs. HUROK, for instance, would prefer a accord rate draptices singer to distribute or accord alike from Ukraine.

Actually, he added Jews are like that also in ether aspects and he wonder that is an anti-semitian in the Soviet Union on the whole, and each in Unreine. Dr Kl's remark in defence of Jews he purred with remark that she should not worry about them because they have quite MEE in the Soviet Thus, he continued. "do you know that they have 14 synagoges in Ukrains and how many shurches have you, cath ligs?" He also pointed at a unproportionately high per cent of Jews With University education and "ware jobs".

CHERNIAVSKY also complained that Radio Bress and To igners them (Ukrainian Mission) here in the States. They mever get any invitation for interviews etc. He saked Dr Kl to help them to get through to those media. He stressed they want "to put Ukrains through to the international lorum" because this will help them also at home.

SEGUL

8. The way to full amancipation of the Ukrains leads showever, through building up and strengthenging of Ukrainian culture. All efforts should be directed to that goal. Not so called politics but sulture has to have priority. That's why also in cultural exchange with emigration they (Kiev) want to sevelop contacts with scholars, writers, students. Dr KI would do much better by putting emphasis, beside church affairs, only on cultural, "really sultural" aspect and not politics.

9, CHERNIAVAKY is sure Dr Kl will come next year to Kies. It would be advisable to some with some other people and hold there as many conferences as pessible. He would like to know what kind of invitation By Kl manted to have a efficial or private - from Kolosseva.

10. Chima - a very drastic question. Soviet Ukraine cannot ap with Chinese benause they want war. Ukrainians realise however, that they would be the first eyes to suffer mostly from an eventual war. Therefore " we have to stick with these who are against wer. " "Nedther Rassians nor moreover Chinese would feel so deeply war damages as would "kraine in any kind of world war".

11. It has been dissovered now that damages in the Dational Library caused by fire in 1964 were much less than originally estimated. The main thing is that unique archives have been preserved. It was discovered that they were not at the place which burned down and where they were supposed to be. There is huge work now going on on getting copies from other libraries and "put everything in order".

12. PHERNIAVSKY wanted to know what were the chances for gething some books from emigres and other sources abroad for supplementing Ukrainian libraries.

Dr El Manght chances were quite good.

13. The trend to greater enancipation among Ukrainians is getting stronger and stronger. Even here, in the Mission, they were alredy discussing the possibility of Ukrainian Delegation voting differently than the Sowiet Delegation on some matters.

14. CHERNIAVSKI was surprised so many people were reading Sychoda and America and this was a very bad reflection on Ukrainian emigration in the States.

15. Rita, wife of CHERNIAVSKY is on very friendly terms with TRONKO and bis family. TRONKO'S position in the present Kiev hierarchy was very strong, so was Koloseevals whose position is like that of a Kinister. CEDINAL

If we Seriet Ukrainian authorities did not suffer from abundance of finacial means. " We all don't have too much money". That's why there are also such big difficulties in developing burism from Ukraine to this country. A short trip to the States from Ukraine costs Rubel 1,600. "Who can afford it?" Horeover that in Europe you can see much sore, so far as gulburn is compared, and at much cheaper price. Host popular are bring from the Black Sea to beningrad by ship with stops in 5 or 5 Sountries. This team costs paly Rubel 500.-

19. CHERNIAVSKY told Dr Kl that he was contemplating to give up his diplometic career and instead lecture at Kiev University on history.

20. CHERNIAVSKY was "very objective" about the late detropolitical SHEPTIMEKYI. He mentioned that at one time they ( In Kiev) were going to purifich some materials from SHEPTYTSKYI'S archives despressioning him as some sert of a German agent, but now they went deeper late the problem and dispovered that he was justified in many things which he had denie.
